

MyLab™

Limitless ultrasound imaging

MyLab™

Limitless ultrasound imaging

MyLab™X8 eXP represents an outstanding source of innovation and technology, designed to accelerate your workflow.

MyLab™X8 eXP offers: an LCD monitor with the latest technology, a smart stand-by function and a fast boot time, Windows® 10 O.S., zero-click automation functions, and cutting-edge ergonomics.

Achieve infinite results with its highly intuitive user interface and advanced clinical tools, tailored to suit your needs.

The **MyLab™X8 eXP** system sets a standard of high performance, offering a brand new ultrasound experience.

Cutting-edge Integrated Technologies

MyLab™X8 eXP integrates the latest technologies, delivering a high level of image quality without compromising workflow or efficiency.

● LARGE 21" MONITOR 

LCD monitor with the latest technology, ensuring the best enhancement of the details and a full-screen mode.

● TRANSDUCER CONNECTORS 

Up to 5 transducer connectors enabling fast probe switch to adapt to the most demanding clinical environments.

● TABLET-LIKE TOUCHSCREEN 

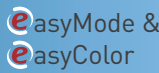

Widescreen multi-function tablet-like touchscreen for uncompromising ease of use.

● FAST SYSTEM BOOT UP 

Fast system boot time from standby, for effective performance at the point of care.

● ZERO-CLICK FUNCTIONS 

Zero-click automation functions provide very fast interface usage and simplify complex procedures in different applications.

●  

“One-Touch” image optimization brought intelligent real-time algorithms.

● BATTERY ON BOARD 

Battery on board* to enable an autonomous cartbase.

*optional

Ergonomics and comfort without compromise

Based on a decade of experience, **MyLab™X8 eXP** delivers outstanding ergonomics and comfort in daily practice. With creative solutions for both hardware and software, clinicians are provided with innovative tools.

- ✓ Simplified control panel
- ✓ Large touchscreen with tablet gesture for displaying recorded images
- ✓ Smart automation functions like **eDoppler** and **eScan** to increase the examination time efficiency

Limitless mobility

MyLab™X8 eXP is designed to adapt to all situations.

- ✓ Battery*
- ✓ Fast boot time
- ✓ Easy plug and play
- ✓ Light and compact
- ✓ Easy to move with smart cable management
- ✓ Real stand-up position

*optional

easyMode* & easyColor*

40+ imaging optimization parameters adjusted in 3 swipes.

“ONE-TOUCH” IMAGE OPTIMIZATION THROUGH INTELLIGENT REAL-TIME ALGORITHMS

Esaote has completely reinvented ultrasound exam optimization. **e**asyMode and **e**asyColor adapt and respond to user needs. So physicians and sonographers no longer need to struggle with the system technology and its processes.

Unique technology to simplify the ultrasound image optimization:

- ✓ Improved diagnostic confidence
- ✓ Higher productivity
- ✓ Reduced work-related musculoskeletal disorders for operators
- ✓ Reduced number of image controls

*patent pending

Large probe portfolio

Esaote iQProbes meet gold quality standards, offering state-of-the-art technology for a large range of applications:

- ✓ Superb imaging outcome
- ✓ Lightweight, appleprobe ergonomics
- ✓ Reduced musculoskeletal strain of up to 70%
- ✓ Increased confidence

At the service of the image

Superficial tendons - Very high frequency exploration of up to 24MHz

Thyroid - Lesion with ElaXto

Kidney - Tissue perfusion visualisation with microV

Liver - CPI with color Doppler

Carotid - Real-time measurement of the Intima Media with QIMT

Cardiac - Zero-click EF measurement with AutoEF

Cardiac - Zero-click strain evaluation with XStrain™2D

Baby profile - XView algorithm for increased visibility

Uterus - XLight 3D/4D exploration

Up to the advanced applications

Urology - Prostate biopsy with Virtual Navigator fusion imaging 3D

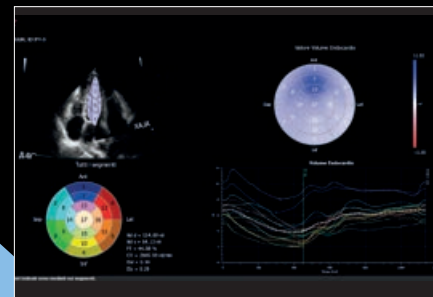

Liver - Contrast session with CnTI™ and QPack

Liver - Stiffness quantification with QElaXto

Musculoskeletal - Evolution of the inflammation with Follow Up and QPack

Left Ventricle - Volumetric model of the left function with XStrain4D

Breast - Accurate multimodality diagnosis with Follow Up and BodyMap

Extended connectivity

- ✓ DICOM
- ✓ IHE compliance
- ✓ Wireless connectivity
- ✓ MyLab™Desk evo
- ✓ Multi-modality archives
- ✓ MyLab™Tablet
- ✓ MyLabRemote
- ✓ eStreaming

Broad connectivity options

In a fast-changing world, when the value of information is increased by the possibility of sharing it, the highest level of clinical data management must be available to meet today's medical needs. The worldwide medical imaging community has entered a new era of communications opportunities.

Based on Windows® 10, these developments enable imaging professionals to reach diagnoses more effectively and efficiently.
