

MyLab™ X75 (CV) Edition

Enhancing
the experience

NEVER STOP SEEING THE UNSEEN.

Enhancing the experience

Powered by the latest Esaote technology, **MyLab™X75 CV Edition** offers ultrasound images with extraordinary clarity and includes a complete Cardiovascular package.

iQProbes

Detailed resolution and scanning fluidity guarantee excellent quality examinations in all Cardiovascular environments. Ultra-clear and detailed images for improved diagnostic capability.

Productivity

MyLab™X75 CV Edition increases everyday productivity to provide the best patient care possible. Automatic optimization tools are supported by Esaote Zero-click technology and Artificial Intelligence, to maximize your investment.

Comfort System

Smart ergonomic design keeps the system lightweight and silent, combined with low consumption and long battery life. MyLab™X75 CV Edition brings comfort to patients and operators in every clinical setting.

Connectivity Capability

MyLab™X75 CV Edition is equipped with innovative connectivity tools, to support telemedicine and meet today's challenges.

Precise Imaging of Challenging Patients

Cardiology

Single Crystal probe technology, addresses all examination conditions: clear images to visualize high-speed cardiac structures and Continuous Wave (CW) sensitivity.

Vascular

QIMT and QAS extend vascular explorations with automatic measurements of intima-media thickness and artery stiffness.

Cardiac Explorations

MyLab™X75 CV Edition offers extended capabilities in cardiac imaging, including Stress Echo and LVO enhancement.

Immediate Workflow using Artificial Intelligence

AutoEF

Powered by Artificial intelligence, AutoEF offers end users diastolic and systolic endocardial border profiles, thus enabling quick and easy ejection fraction quantification in 4 and 2 chambers.

XStrain™

Powered by Artificial Intelligence, XStrain™ offers end users “Zero-click” detection of the endocardial border profiles.

Enhancing connectivity capabilities

Connectivity Capabilities

MyLab™X75 CV Edition platform is equipped with innovative connectivity tools to support remote connections and image sharing, to meet today's challenges.

- **Full DICOM capabilities** (Q/R); IHE-compliant.
- **MyLab™Desk** makes it possible to review previous cardiovascular examinations on an external workstation.
- **@Streaming** shares the scan views you select, in real time and in complete safety.
- **MyLab™Tablet** exports full examination datasets to any tablet device.
- **Multimodality & Follow-Up** compares any second-modality DICOM datasets in real time.
- **MyLabRemote** duplicates the control panel on various tablet devices.
